

BLOWING GUIDE

Preferred Parking for 2 Cars:

Cars should be parked side by side close to the garage/front of the house.

Trees, Shrubs & Flower Pots:

Branches overhanging the driveway must be trimmed to 9ft. Shrubs must be covered and potted plants must be moved.

2 Cars Alternate Parking:

Pull up both cars to one side as close to each other as possible.

Basketball Hoops, Lamp Posts & Objects:

Basketball hoops must have 10ft clearance. Driveway area must be clear of lamp posts, downspouts & other objects.

DO NOT:

Park a car near the end of the driveway. This results in an area that we will not be able to clear.

If A Car Must Be Parked In The Driveway:

Park all the way to one side leaving at least 9ft of open space next to the car.
